NEW QUESTION: 1

The extensive palette of visualization options delivered with Oracle Analytics Cloud can be extended with custom plugins.

What option is false about implementing custom visualization plugins?

- A.** The bicreateplugin script, provided with Oracle Analytics Cloud, can be used to create a skeleton visualization to facilitate custom development.
- B.** Plugins for rendering sophisticated visuals can be downloaded from the Oracle Data Visualization Library.
- C.** To be implemented, custom plugins must be deployed in the Bi_HOMEAnalyticsrccustomVi2 directory and BI Services need to be restarted.
- D.** Oracle Analytics Cloud provides a Software Development Kit (SDK) to enable builds of custom plugins.

Answer: C

NEW QUESTION: 2

You are responsible for the company network and provide technical support for your company. You are in charge of offering service for a customer named Alex. In Alex's company, employees are allowed to purchase and install software on company computers. Since you are the technical support, you are asked to make sure that volume licensing can be used by him. So what action should be performed to accomplish that task?

- A.** To accomplish that task, a Microsoft License Statement (MLS) should be requested before generating a Microsoft Product License Advisor (MPLA) report.
- B.** To accomplish that task, all hardware inventory information should be collected before identifying all approved hardware vendors.
- C.** To accomplish that task, a software discovery tool should be implemented before generating a Microsoft Product License Advisor (MPLA) report.
- D.** To accomplish that task, all software should be identified and purchased through approved software vendors.

Answer: D

NEW QUESTION: 3

Regarding Amazon SQS, what happens if there is no activity against a queue for more than 30 consecutive days?

- A. The queue may be deleted
- B. Nothing
- C. The queue will be deleted
- D. Your account will be suspended

Answer: A

Explanation:

AWS reserve the right to delete a queue if none of the following requests have been issued against the queue for more than 30 consecutive days:

SendMessage

ReceiveMessage

DeleteMessage

GetQueueAttributes

SetQueueAttributes

You should design your application with this in mind.
