You have an Azure solution that uses Multi-Factor Authentication for added security when users are outside of the office. The billing model has been set to per-authentication.

Your company acquires another company and adds the new staff to Azure Active Directory (Azure AD).

New staff members must use Multi-Factor Authentication.

You need to change the billing model to per-user.

What should you recommend?

- A. Create a new Multi-Factor Authentication resource with a backup from the current Multi-Factor Authentication resource data.
- B. Create a new Multi-Factor Authentication resource and reconfigure the billing model.
- C. Use the Azure portal to change the current billing model.
- D. Use Azure CLI to change the current billing model.

**Answer: B**

Explanation:

Explanation/Reference:

Explanation:

The billing model is selected during resource creation and cannot be changed once the resource is provisioned. It's possible, however, to create a new Multi-Factor Authentication resource to replace the original. Please note that user settings and configuration options cannot be transferred to the new resource.
