### **NEW QUESTION: 1**

Universal Containers has a custom Visualforce page that makes a callout to an external service to show historical sales data from the warehouse. Due to heavy usage and slow response time of the external web service, Salesforce continues to hit the Apex Concurrent limit. Assuming that external web service response time can't be improved, what changes can be made to the custom Visualforce page and Apex Controller to avoid hitting the Apex Concurrent limit?

- A.** Use @future annotation to make the HTTP Callout.
- B.** Invoke a Workflow Outbound message from the Apex trigger.
- C.** Replace the standard HTTP Callout with Continuation.
- D.** Set a timeout on the web service HTTP callout.

**Answer: C**

### **NEW QUESTION: 2**

You are a licensing specialist. Your customer is Proseware, Inc., an online bookstore that has \$30 million in annual sales.

#### Company Background

Proseware, Inc., has a main office in New York and branch offices in the United States, Greece, and Malaysia. The company anticipates that sales will continue to grow this year.

#### Network Description

The company network contains 700 desktops that run Microsoft Windows XP Professional. Two hundred of the desktops run Microsoft Office 2000 Professional, which is covered by Software Assurance that expires in 13 months. The other 500 desktops run Office 2000 Standard, which is not covered by Software Assurance. The current desktop environment meets the company's needs.

The network contains 100 Windows NT Server 4.0 servers that run the company's online Web services. The company wants to upgrade all the servers to Windows Server 2003.

However, there is not enough budget to upgrade this year. The company is considering a Microsoft Exchange Server 2003 deployment, and it expects to purchase about 20 additional servers during the next three years.

#### Current Licensing Solution

Proseware, Inc., currently purchases Microsoft software through an Open Volume agreement. In the past, the company made license-only purchases on all server software licenses and did not invest in Software Assurance. Because of the geographical locations of the company offices, managing licenses is difficult.

#### Business Goals

The chief executive officer (CEO) states that the information technology (IT) department is too

busy managing the server infrastructure. The IT department has the following goals:

Increase the security of the network.

Maintain stability in the organizations infrastructure.

Ensure that the technology on new servers is kept current.

Increase the return on IT investments.

The IT department does not have time for basic desktop help desk requests. The department wants to find ways to gain additional technical support from Microsoft on desktop and server products that are purchased.

End of repeated scenario

You need to recommend the most appropriate licensing solution for upgrading the servers to Windows Server 2003. What should you recommend?

**A.** Enterprise Agreement

**B.** Open Volume with Software Assurance

**C.** Select License with Software Assurance Membership

**D.** Original Equipment Manufacturer (OEM)

**E.** Open Business with Software Assurance
