NEW QUESTION: 1

DRAG DROP

Your network contains an Active Directory domain named contoso.com. All client computers run Windows 8.

Group Policy objects (GPOs) are linked to the domain as shown in the exhibit. (Click the Exhibit button.)

GPO2 contains computer configurations only and GPO3 contains user configurations only. You need to configure the GPOs to meet the following requirements:

- Ensure that GPO2 only applies to the computer accounts in OU2 that have more than one processor. - Ensure that GPO3 only applies to the user accounts in OU3 that are members of a security group named SecureUsers.

Which setting should you configure in each GPO?

To answer, drag the appropriate setting to the correct GPO. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer:

Explanation:

NEW QUESTION: 2

When using Infrastructure Visualization, you can determine the last backup status of all nodes in a group by matching the color bar to a color scheme key. Which color represents incomplete jobs?
