From HP HPE2-CP10 study guides to practical training Totherescue readily provides you all of Totherescue, In other words, HPE2-CP10 study materials can help you gain a higher status and salary.

NEW QUESTION: 1

An organization is trying to determine whether it should use the Windows version of the vCenter Server or use the vCenter Server Appliance (VCSA). The organization will be using an external Oracle database, and it will manage about 30 ESXi hosts and about 200 virtual machines on 1 vCenter Server, but it would also like to see another group's vCenter Server from the same vSphere client window. Which type of vCenter Server should it use, and why?

- A.** The vCenter Server Appliance (VCSA) because it can be used with Oracle
- B.** The Windows version because it can support Oracle
- C.** The VCSA because it can support 30 ESXi hosts
- D.** The Windows version because it can support Linked mode

Answer: D

Explanation:

The VCSA does not support Linked mode, so it cannot be used in this instance, based on the requirement that the user should be able to see multiple vCenter Servers in a single vSphere client window.

NEW QUESTION: 2

You are configuring a static route.

Which action must you take to avoid the possibility of recursive routing?

- A.** Use the ip route command to specify the connected interface only
- B.** Use the ip route command to specify the next-hop IP address only
- C.** Specify the next hop as a directly connected interface
- D.** Use the ip route command to specify both the next-hop IP address and the connected interface

Answer: D

NEW QUESTION: 3

You are developing a Microsoft Teams application. To host a webpage in a Teams tab, the manifest file must include the contentUrl property within the staticTabs property.

Instructions: Review the underlined text. If the statement is correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. ValidDomain property within the configuragbleTabs property
- B. websiteUrl property within the configuragbleTabs property
- C. ValidDomain property within the statictabs property
- D. No change is needed.

Answer: B
