NEW QUESTION: 1
You are footprinting an organization and gathering competitive intelligence. You visit the company's website for contact information and telephone numbers but do not find them listed there. You know they had the entire staff directory listed on their website 12 months ago but now it is not there. Is there any way you can retrieve information from a website that is outdated?
A. Visit Google's search engine and view the cached copy
B. Crawl the entire website and store them into your computer
C. Visit Archive.org web site to retrieve the Internet archive of the company's website
D. Visit the company's partners and customers website for this information
Answer: C
Explanation:
The Internet Archive (IA) is a non-profit organization dedicated to maintaining an archive of Web and multimedia resources. Located at the Presidio in San Francisco,California,this archive includes "snapshots of the World Wide Web" (archived copies of pages,taken at various points in time),software,movies,books,and audio recordings (including recordings of live concerts from bands that allow it). This site is found at www.archive.org.

NEW QUESTION: 2
Security groups in VPC operate at the _____.
A. instance level
B. data transport layer level
C. subnet level
D. gateway level
Answer: A
Explanation:
Explanation/Reference:
Explanation:
You can secure your VPC instances using only security groups. When you launch an instance in a VPC, you can associate one or more security groups that you've created. The security groups act as a firewall for associated Amazon EC2 instances, controlling both inbound and outbound traffic at the instance level.
