Explanation:
Besides changing the notification behavior of UAC, you can also control the behavior of the UAC by using local or group policies. Local policies are managed from each local computer while group policies are managed as part of Active Directory.
Follow these steps to change UAC settings:
Click Start, type secpol.msc in the Search programs and files box, and press Enter.
From the Local Security Policy tree, click Local Policies and then double-click Security Options
The UAC policies are at the bottom of the list. To modify a setting, simply double-click on it and make the necessary changes.
