NEW QUESTION: 2

A report author has added a Button Bar control to an Active Report that allows users to view data for different regions. The report author now wants to make it possible for users to filter the report on multiple regions at once.

What should the report author do?

- A. Use the Static version of the Button Bar control.
- B. Convert the Button Bar control to a Check Box Group control.
- C. Convert the Button Bar control to a Radio Button Group control.
- D. Use the Data-driven version of the Button Bar control.

Answer: B

NEW QUESTION: 3

Universal Containers currently assigns its users from the facilities and IT teams to the same profile.

Universal container recently created a custom object to track company cars and wants only users from the facilities team to have access to this new object.

How can an administrator meet this requirement?

- A. Configure field-level security on the new object for the facilities team.
- B. Assign the facilities team to a new role in the role hierarchy.
- C. Create a custom profile for users on the facilities team.
- D. Modify the standard profile currently shared by both teams

Answer: C
