- E. You can create a copy of an existing snapshot.

Answer: B,C,D,E

NEW QUESTION: 3

DRAG DROP You need to configure the environment for confidential documents.

Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Select and Place:

Answer:

Explanation:

Explanation:

Box 1: In the Site Collection Policies Gallery, create a policy feature. Box 2: Associate the policy feature with

a restricted content type.

Box 3: Activate the policy feature.

Note:

*From scenario: Changes to confidential documents must be logged.

*Policy features are implemented as programs that run on SharePoint Server 2013. They can be enabled

and configured by a server administrator and, when they are enabled, they can be used by site administrators to define policies.

*To implement a policy, associate it with content types, libraries, or lists in sites.

*The top-level site of a site collection includes a Site Collection Policies gallery where administrators of the

top-level site can create new policies. After creating a Site Collection policy, you can export it so that

administrators of other site collections can import it into their Site Collection Policies galleries. This lets you

standardize policies across your organization.

*You can associate a policy with a library, list, or content type in the following ways:

A) Associate policy features with a Site Collection policy and then associate that policy with a content type

or with a list or library.

B) Associate a set of policy features directly with a content type, and then add that content type to one or

more lists or libraries.

C) Associate a set of policy features directly with a list or library.

Reference: Plan for information management policy in SharePoint Server 2013

NEW QUESTION: 4

A. Option A

B. Option B

C. Option D

D. Option C

Answer: A
