Which module is not included in the panoramic view of the safe city:

- A. Interfacing with electric access control system
- B. Video surveillance platform
- C. GIS application module based on video surveillance
- D. Connection with electric police and bayonet

Answer: A

NEW QUESTION: 2

Enable The User Profile Synchronization Service

- A. Go to Central Administrator, in System Settings click Manage Services on server. On Services, in the server box, select the synchronization server. Find the row whose Service column value is User Profile Synchronization Service. If the value in the Status column is Stopped, click Start in the Actions column. On the User Profile Synchronization Service page, in the Select the User Profile Application section, select the User Profile service application. In the Service Account Name and Password section, enter the password for the farm account and then confirm it again. Click Ok to finish
- B. Go to Central Administration, in the System Settings click on Manage services on server. On Services on Server page, in the Server box, select the synchronization server. Find the row whose Services column value is User Profile Service. In the value in the Status column is Stopped, click Start in the Action column.
- C. Use PowerShell Cmdlet Install - SPUser - Identity MySharePointUser - LiteralPath -GacDeployment
- D. Go to Central Administrator, click on System Settings. In Farm Management section, click

Manage Farm Users, Click Enable Profile. Click Ok to finish

Answer: A

Explanation:

In this procedure, you start the User Profile Synchronization service. The User Profile Synchronization service interacts with Microsoft Forefront Identity Manager (FIM) to synchronize information with external systems.
