#### **NEW QUESTION: 1**

- A. .doc
- B. .txt
- C. .dotx
- D. .pptx

**Answer: C**

Explanation:

Document Fingerprinting supports the same file types that are supported in transport rules.

One quick note about file types: neither transport rules nor Document Fingerprinting supports the .dotx file type, which can be confusing because that's a template file in Word.

When you see the word "template" in this and other Document Fingerprinting topics, it refers to a document that you have established as a standard form, not the template file type.

Reference: Document Fingerprinting
