In which of the following phases of the SDLC does the software and other components of the system faithfully incorporate the design specifications and provide proper documentation and training?

- A. Evaluation and acceptance
- B. Programming and training
- C. Initiation
- D. Design

Answer: B

Explanation:

Explanation/Reference:

Explanation: In the programming and training phase of the SDLC, the software and other components of the system faithfully incorporate the design specifications, and proper documentation and training are provided. Answer D is incorrect. During the initiation phase, the need for a system is expressed and the purpose of the system is documented. Answer A is incorrect. During the design phase, systems requirements are incorporated into design. This phase specifies to include controls that support the auditing of the system. Answer: B is incorrect. During the evaluation and acceptance phase, the system and data are validated, all the control requirements and the user requirements are met by the system.
