NEW QUESTION: 1

Which tool must be used to analyze all of the database operations performed by an application against a DB2 for i5/OS database?

- A. SQL Performance Monitor
- B. Activity Monitor
- C. DB2 Performance Monitor
- D. Visual Explain

Answer: A

NEW QUESTION: 2

The multi-disciplinary approach involves individuals from several professions that are responsible for the delivery of services. Each team member is only accountable for activities related to their discipline.

Although this method is easy, it is not always effective. What approach involves constant interaction

between professionals, working towards the same goal?

- A. Trans-disciplinary
- B. None of the above
- C. Interdisciplinary
- D. Individualism

Answer: C

Explanation:

The interdisciplinary approach to service enhances communication among several professionals. A client and their family will be among the team participants. Each individual will collaborate with the others to ensure smooth progress and a positive attitude towards all disciplines is

quite apparent. Professional activities appear to flow into one another with no break in services.

NEW QUESTION: 3

The network administrator cannot connect to Switch1 over a Telnet session, although the hosts attached to Switch1 can ping the interface Fa0/0 of the router. Given the information in the graphic and assuming that the router and Switch2 are configured properly, which of the

following commands should be issued on Switch1 to correct this problem?

A. Switch1(config)# ip default-gateway 192.168.24.1

B. Switch1(config)# interface fa0/1

Switch1(config-if)# switchport mode trunk

C. Switch1(config)# interface fa0/1

Switch1(config-if)# ip address 192.168.24.3 255.255.255.0

D. Switch1(config)# line con0

Switch1(config-line)# password cisco

Switch1(config-line)# login

E. Switch1(config)# interface fa0/1

Switch1(config-if)# duplex full

Switch1(config-if)# speed 100

Answer: A

Explanation:

Since we know hosts can reach the router through the switch, we know that connectivity, duplex.

Speed, etc. are good. However, for the switch itself to reach networks outside the local one, the ip default-gateway command must be used.
