- C. Dictionary
- D. Man-in-the-middle
- E. Brute force

Answer: C,E

Explanation:

Section: Access Control and Identity Management

Explanation/Reference:

Explanation:

Account lockout is a useful method for slowing down online password-guessing attacks. A dictionary attack

performs password guessing by making use of a pre-existing list of likely passwords. A brute-force attack

is intended to try every possible valid combination of characters to create possible passwords in the

attempt to discover the specific passwords used by user accounts.
