Explanation:

### **NEW QUESTION: 2**

You are the project manager at a utility company. Due to the recent rise in the cost of petroleum, your organization is exploring cheaper, alternative forms of energy. You have just completed the project Scope Planning process and created the Scope management plan. However, upon review, you have determined that the resulting project scope management plan is ambiguous and poorly written. A poorly written project scope management plan will directly impact all of the following EXCEPT:

- A. Ability to create a detailed project scope statement as the basis for future project decisions.
- B. Ability to formalize acceptance of the project deliverables
- C. Ability to control changes to the project scope
- D. Ability to identify the necessary activities that needs to be performed to produce project deliverables
- E. Ability to define, prepare and integrate, all subsidiary plan, into the project management plan

**Answer: E**

### **NEW QUESTION: 3**

Your network contains a System Center 2012 Configuration Manager environment  
You add a software update point to the environment.  
You receive a message indicating that SMS WSUS Synchronization failed.

You need to retrieve additional information about the message.

Which log file should you review?

- A. Dcmagent.log
- B. Hman.log
- C. Rcmctrl.log
- D. Contenttransfermanager.log
- E. Wsyncmgr.log
- F. Locationservices.log
- G. Sitestat.log
- H. Smsexec.log
- I. Sdmagent.log
- J. Ccm.log
- K. Ciagent.log

**Answer: E**

Explanation:

<http://technet.microsoft.com/en-us/library/hh427342.aspx>

Technical Reference for Log Files in Configuration Manager  
wsyncmgr.log Site server log file  
Records details about the software updates synchronization process.

Further information: Locationservices.log Client log file  
Records the client activity for locating management points, software update points, and distribution points.

Smsexec.log Site server or site system server log file  
Records the processing of all site server component threads.

Ccm.log Site server log file  
Records client push installation activities. Sdmagent.log Client log file  
Records details about tracking of remediation and compliance. However, the software updates log file, Updateshandler.log, provides more informative details about installing the software updates required for compliance.

DCMAgent.log Client log file  
Records high-level information about the evaluation, conflict reporting, and remediation of configuration items and applications.

Rcmctrl.log

Site server log file

Records the activities of database replication between sites in the hierarchy.

Ciagent.log

Client log file

Records details about the process of remediation and compliance for compliance settings, software updates, and application management.

hman.log

Site server log file

Records information about site configuration changes, and the publishing of site information in Active Directory Domain Services.

ContentTransferManager.log

Client log file

Schedules the Background Intelligent Transfer Service (BITS) or the Server Message Block (SMB) to download or to access packages.

Sitestat.log

Site server log file  
Records the availability and disk space monitoring process of all site systems.
